

## Yes – Learn Video making.

Have fun making the most use of your video camera with new friends at our monthly meetings — we welcome visitors.

Topics cover all aspects of movie-creation, from script-writing, through shooting your material to computer based editing, DVD authoring and finalising your dream movie.

Regular Club projects and workshops allow you to develop your skills by becoming part of a team, eventually producing your own Club project.

Our Club has strong support from video associated professionals and retail outlets through which member discounts are often available.
