<u>Overall effectiveness 20 points</u> Does the video work? Does it entertain, inform, evoke an audience response.		

Total _____

Judging Notes- The subheadings listed above are for the guidance of exhibitors and judges. However the judges will assess each of the 5 elements as a whole looking especially at the overall effectiveness and impact of the video. The listing of a sub-heading within an element does not infer that it should be included; eg a scene change may be a “straight cut” with no “fancy” transition. Also, the subheadings will be assessed in the context of the production; eg. a shot out of focus may be a deliberate artistic effect and as such, will be judged accordingly. The decision of the judges is final and not subject to discussion or appeal.
